### **Contractor for flooring solutions and corrosion protection**

G. Theodor Freese GmbH & Co. KG, established in 1910, is producer, applicator and supplier of all kinds of deck-covering materials.

Our products TEFROTEX®, TEFROLITH® and TEFROKA®, as well as our synthetic teakwood decor TEFROTEAK®, are well known world wide and meet owner's and yard's high technical demands. Sound damping tests have shown remarkable results. For exterior decks our materials meet highest demands in respect of sound insulation and design.

Complete turn-key solutions for floorings including carpets, PVC, ceramic tiles etc. can be provided.

Also our competence in corrosion protection for ship steel structures as well as drinking-, waste- and ballast-water tanks is shown in our remarkable reference lists.
