

Experts for ship interior.

Rheinhold & Mahla

Since 1887

R&M is a leading global provider of interior and outfitting for ships and maritime applications. As a lifecycle partner R&M offers turnkey solutions for new builds, conversions and repairs worldwide.

Our services range from engineering, project management and installation of thermal and acoustic insulation, fire protection,

heating, ventilation and air conditioning as well as production and installation of accommodation systems.

R&M is a synonym for reliable, on-time and high-quality. Wherever a vessel will be built – we grant the proven function, quality and durability of the interior.
